INFORMATION DISCLOSURE STATEMENT

This is an Information Disclosure Statement filed in accordance with 37 CFR 1.98, within the time specified in 37 CFR 1.97(b).

Attached is a Form PTO/SB/08 identifying each of the five (5) references cited in the International Search Report, copy enclosed, issued by the European Patent Office on June 29, 2005, in connection with the above-identified International application. Copies of the two cited English language Patent Abstracts of Japan and of the two corresponding Japanese patent publications with English translations are enclosed. As can be seen from the Search Report, the two Japanese references

were considered to be in Category X with regard to the originally filed claims 1-17 in the International application.

The attached Form PTO/SB/08 additionally identifies U.S. Patent No. 6,035,518, which was cited and discussed on page 2 of the present application as originally filed.

Since all requirements for the filing of Information Disclosure Statements have been complied with, it is requested that the Examiner consider all of the identified references and indicate such consideration by enclosing a properly initialed copy of the enclosed Form PTO/SB/08 with the initial Office Action.

Respectfully submitted,

FITCH, EVEN, TABIN & FLANNERY

Comment: When inserting text in the table cells for the number of sheets, Attorney Docket, last row of U.S. Patent documents, or last row of Foreign Patent Documents, make sure the insertion point is after the "ADV" code in each cell. The "ADV" codes are needed so that the text in these cells will not rest on the heavy border of the tables. If you need to add or delete rows, do so before the last row. Also note that separate tables were created for each section of the PTO-1449 to facilitate use and editing of the form.
